

Seaworthy.

'YELLOW STEEL' Expansion Joints

For piping systems on ships,
you need compensators –
to absorb thermal expansion,
reduce vibration and noise.

Our 'YELLOW STEEL'
expansion joints reliably
to do this job.

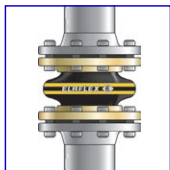

- Flame Resistance to
ISO 15540 and 15541.
Suitable for the installation
in ship engine rooms.

- All necessary trials passed.
Approved to the 'Marine
Equipment Directive'.

- Premium Quality, made
in Germany.

- Quick delivery service
possible upon request.
